

Tokyo, December, 2. 2001

Dear ISSE people:

My daughter, Sanae (27 years old), was a victim of that horrible terrorism to the World Trade Center in New York on September 11th during her business trip to New York. Despite the great efforts of everyone involved, my daughter is still "missing. "

More than two months have passed since the incident. We would like to express our deepest gratitude to all of you for your heartfelt words and sympathy, which are a great encouragement to my family during this time.

On the occasion of the memorial service held in New York on October 28, we have received 'a tiny pot to commemorate Sanae'. Taking that as a break we held a "Memorial Service for Sanae" for her family and close friends a few days ago. We are indeed saddened and so hard to believe what happened. However, we must accept this situation as fact, and what has already happened. Therefore we have made a decision to live positively for the future, instead of grieving for the past forever. We believe this will be the best for Sanae's soul. Even though she had lived for only twenty-seven years, we believe Sanae had a challenging and most fulfilling life.

Again, our family wishes to express our deepest appreciation to you for all your warm thoughts and encouragement. Thank you for your many kindnesses.

Sincerely,

Mr and Mrs Mori
